FRAMELESS SHOWERS DESIGNED FOR YOUR SPACE

ALL ABOUT YOU

PREMIUM DESIGN SERVICE

It matters to us that we can adapt to your space.
Our design service forms the basis of each installation.

Featured installation: Corner shower with full height door.
Detail: Low Iron Glass with Clearshield, concealed fixing to stone tray, walls and ceiling and integrated to the bath surround.

Featured installation: Walk through steam shower.
Detail: Low Iron Glass with Clearshield, concealed fixing into stone work, modesty band, customer's own handle, suitable for steam and shower use.

SERVICE

WE FIT IN WITH YOU – THAT'S A PROMISE

We ensure our products will complement your home without intrusion, whatever the age, shape or size of your property.

Featured installation: Combination steam shower cubicle
Detail: Low Iron glass with clearshield, surface fix channel to ceiling, wall and tray.

LET YOUR PERSONALITY SHOW

Our unobtrusive installations and stylish fittings will enhance the features of your room.

Featured installation: Corner shower.
Detail: Low Iron Glass with Clearshield, full height side panel, channel fixing to ceiling and tray, bracket fixing to wall.

ENHANCE

DETAIL

DESIGN

We want you to achieve the best possible look for your bathroom and will happily assist with design advice to ensure the shower integrates into your bathroom in a stylish and functional manner.

Featured installation: Corner shower.

Detail: Clear glass with Clearshield, channel fixing to wall and tray, concealed fixing to bath top, waterproof hinge, door positioned to clear the skirting when opened.

LUXURY FIRST

Create a statement within your surroundings by incorporating functional and beautiful frameless glass.

Featured installation: Steam room, Sauna, Ice room, w/c and changing room doors, internal glazed panel.
Detail: Combination of clear, Low Iron Glass and toughened laminate. Concealed fixings all round, wooden handle for sauna.

SOLUTION

CORINNE AND CHARLES COHEN

"We are delighted with the finished product; we simply cannot fault it. We particularly like its sturdiness."

NAHEED UDDIN

"We had extensive building works done and the service received from beginning to end from your company was faultless (unlike any of the other companies we dealt with)."

Featured installation: Steam shower.

Detail: Low Iron Glass with Clearshield, concealed fixing to walls, tray and ceiling, central door orientated for easy access to thermostat and towel rail, suitable for steam use.

SLIDING DOORS

We are proud to offer the best sliding door mechanism on the market. The German technology denotes durability and functionality, virtually without detection.

MARGARET WINSLOW

"I am delighted with the finished product and for the fact that you installed within the time frame you originally quoted. If only the rest of my home refurbishment ran this smoothly."

Featured installation: Sliding door.

Detail: Low Iron Glass with Clearshield, bracket and silicone fixing to wall and tray, integral wheels fixed to the door run within the glass side panel – understated yet stunning.

YOUR SPACE

JUDITH QUARRY

"I just really wanted to thank your company for being so amazingly efficient. You came when you said you would, you did what I expected, it looks superb and you cleaned up all of the mess. All very, very rare these days. I have about a dozen projects on the go both here in Hampshire and up in London and yours has been the only project that has gone according to plan."

Featured installation: Shower cubicle.

Detail: Low Iron Glass with Clearshield, concealed fixing to wall, tray and ceiling, wall mounted door with over panel.

WE GUARANTEE QUALITY AND DURABILITY

All our showers are professionally installed and covered by a 10 year guarantee.

SUSAN PRICE DESIGN

"We are absolutely thrilled with the shower glass and have already inspired other friends in the interior design/property developing world. I look forward to recommending Glasstrends and thank you for your excellent service."

CYNTHIA GRADY

"Thanks so much for the shower enclosure – it really does look beautiful and exactly as I hoped. Thanks also for all the trouble you went to to match the steel with the handle and channels – they make all the difference."

Featured installation: Walk in shower panel.

Detail: Low Iron glass with Clearshield, bracket fixing to wall with channel fixing to floor and support bar.

GUARANTEE

SPACE IS NEVER AN ISSUE

Show us a room and we will fit a shower,
where you want it.

ALBA FLEMING

"Thank you – we are delighted with the shower enclosure.
Thank you too, for your consideration last week when fitting
the enclosure. Your guys were so quiet, our new arrival
managed to sleep soundly."

Featured installation: Bath screen.

Detail: Low Iron Glass with Clearshield, inward opening
door orientated to clear shower rose and controls
when opened, clear under door coving seal to
prevent leakage on flat bath top.

A PLACE WHERE GLASS IS AT HOME

A home is a place where you should be able to surround yourself with things that matter. A frameless glass shower will not stand in the way of that, but will enhance your ability to express yourself.

JULIA MAGILL

"I just wanted to say a huge thank you to you all for your very professional and friendly services from initial enquiry to installation. We absolutely love the fantastic glass shower door, which has finished off our en-suite bathroom perfectly."

Featured installation: Glass room divider, walk in shower and feature mirror wall.

Detail: Low Iron glass with Clearshield, full height pivot door, walk in shower panel and room divider, concealed channel fix. Beveled mirror feature wall.

The example above is a curved entrance screen and door to a swimming pool and wellness area.

Detail: Concealed fixings, Low Iron glass with gold plated hinges and handle.

MORE THAN SHOWERS

In addition to frameless showers we can supply and install many types of internal frameless glazing for example wine cellar screens, swimming pool screens, steam and sauna doors – all professionally surveyed and installed to the highest standards.

Featured installation: Wine cellar

Detail: Low Iron glass with sandblasted text detail and bespoke curved panel, concealed fixing all round, pivot hinge and 2 x back-painted panels with bespoke stainless steel spigots to hold wine bottles.

HANDLES

Handles are the connection with your frameless glass shower and they are its most noticeable feature. We have carefully selected some of the most elegant and complementary pieces for you to choose from. Bespoke handles and fittings are available on request.

CARE FOR YOUR GLASS

Glasstrends is pleased to offer customers the option of having their glass Clearshield treated. Clearshield is a lasting protective barrier which is applied to the shower glass to prevent limescale and other residue damaging and staining the glass surface. Clearshield coated glass resists staining, is easier to clean and prevents the growth of bacteria. We recommend using the aftercare cleaner to guarantee the sparkling finish of your glass for many years to come.

WATERPROOFING

Glasstrends offers a comprehensive range of water seals and design detailing to provide a waterproof frameless shower. We strongly recommend that the shower rose or body jets do not face the door. Glasstrends cannot guarantee a waterproof frameless shower door when the shower rose or body jets are directed towards the door. Glasstrends individually assesses every shower and discusses options with the client before manufacture to ensure the design incorporates the most efficient method of waterproofing. Some showers do not require any waterproof detailing. For example when the shower is being fitted to a wet room floor where there is sufficient drainage built into the floor, any water escaping around the door will naturally flow back underneath it, towards the drain. We can also provide sealing solutions for steam showers where an air tight door may be required.

SAFETY GLASS

All glass used in Glasstrends frameless showers is 10 mm thick toughened safety glass which is manufactured to British and European Safety Standard BS EN 12150:2000 and impact tested to BS EN 12600:2002. Toughened glass is a thermally strengthened glass which is five to seven times stronger than non-toughened glass. In the event of breakage, toughened glass will fracture into small uniform fragments with dulled edges to prevent serious injury.

GLASS OPTIONS

You can choose to have your shower glass made with **Standard Clear Glass** which has a natural green hue or **Ultra Clear Low Iron Glass** which does not. For example when looking through **Standard Clear Glass** with a white background the glass will appear quite green. Because **Ultra Clear Low Iron Glass** is optically clearer, it is almost unnoticeable against the same white background.

There are various applications available to provide colour and texture to your shower glass. Please call us and one of our technical advisers will be happy to discuss your requirements and offer some options for you.

TREATED WITH CLEARSHIELD

Accessories: Glass shelves,
squeegee and robe hook.

GLASSTRENDS – THE COMPANY

“The customer comes first,” it’s as simple as that and we stick to it. We achieve this by listening to what you want, discussing options and then tailoring a package to suit your style, time frame and budget.

As well as manufacturing and installing our own range of beautiful Frameless showers we are delighted to introduce our new range of complementary sanitary and brass ware which has been carefully selected from well-known manufacturers. We believe that this will make creating your new bathroom a straight forward process. You will only need to deal with one company for all your bathroom requirements.

THE PROCESS

Frameless showers, bath screens, sliding doors, glass splash backs, mirrors, interior glass doors.

Supply and Install. After listening, discussing and advising we will provide you with a quotation and installation detail. Upon acceptance of the quotation and receipt of a deposit payment we will attend site to finalise fixing details, obtain working dimensions and ensure all details are as you expect them to be. We then manufacture the glass and return at a specified time and date to carry out the installation using our own in-house professional installers.

Supply Only. For customers who do not require our Supply and Install service simply contact us and we will discuss your requirements, provide you with a quotation and manufacture the shower to your own dimensions. We will then arrange delivery of the shower to your property.

Once we have discussed your ideas and offered advice, we will provide you with a quotation. Upon acceptance of the quotation and receipt of payment your items will be ordered and a delivery date advised. We are then able to offer an introduction to a bathroom installer if you wish. We have a preferred installers list who are local, vetted by us and constantly monitored to offer you peace of mind and an excellent quality of workmanship. We will liaise with the bathroom installer throughout the works to ensure a satisfactory and timely completion is achieved for you.

A TOUCH OF CLASS

Contact us and an experienced advisor will be happy to discuss your requirements. Or visit our recently remodelled showroom on St John’s Hill where you can witness Glasstrends products first hand. You’ll be amazed at the difference a stylish frameless shower will make to your home.

WE GUARANTEE QUALITY AND DURABILITY

All our showers are professionally installed and covered by a 10 year guarantee.
