

## Retail Price Guide

Every Glasstrends shower enclosure is custom made to your specific requirements. Glasstrends operates on a supply and install basis, providing a sophisticated range of accessories produced to give you complete freedom of design. Glasstrends enclosures are suitable for shower trays and wet room floors.

The following prices are inclusive of VAT at 17.5% and are based on installations within an 8 mile distance of SW11. Prices include 10mm Clear Toughened Safety Glass, chrome hinges, chrome knob, bright anodised fixing channel, water seals, TPC surface protection, site measure and installation. Lead time from measuring is 4 weeks. All fixtures and fittings are covered by a five-year warranty. Installations are covered by a one-year, free of charge guarantee.

For an accurate quotation please contact our showroom.

### Structure

Glass panels are held in position with either a "U" channel or wall mount clamp and silicone sealed against the wall and base. Structural support for enclosures and screens is provided by the use of a glass over panel (included in costs shown on examples). When it is not suitable to use a glass over panel, a support bar will be provided for structural support.

For a safe and sturdy installation we recommend that panels wider than 800mm with an unsupported edge be supported by either an overhead glass brace or a support bar (our technical advisers will recommend the optimum safe and sturdy method of installation).

All Glasstrends showers are bespoke and costs may vary from the price guide depending on size, layout, finish and specification.

Please see our technical brochure for further details.

### Additional
