

FRAMELESS GLASS SHOWERS DESIGNED FOR YOUR SPACE

WE STRIVE FOR INVISIBILITY

Our customers are as different as their homes.  
We work sympathetically with this individuality for a result  
that's almost invisible.

Featured installation: Toughened glass wall with central  
door and over-panel, custom fitted to curved ceiling.

A PLACE WHERE GLASS IS AT HOME

Your home is a place where you should be able to surround yourself with things that matter. A frameless glass shower will not stand in the way of that, but will enhance your ability to express yourself.

JULIA MAGILL

"I just wanted to say a huge thank you to you all for your very professional and friendly services from initial enquiry to installation. We absolutely love the fantastic glass shower door, which has finished off our en-suite bathroom perfectly."

Featured installation: Toughened glass wall and hinged door.

OUR DESIGN SERVICE IS EXCLUSIVE

It matters to us that we can adapt to your space.  
Our design service forms the basis of each installation.

Featured installation: Toughened glass doors to shower  
and w/c with sandblasted modesty detail.

JUDITH QUARRY

"I just really wanted to thank your company for being so amazingly efficient. You came when you said you would, you did what I expected, it looks superb and you cleaned up all of the mess. All very, very rare these days. I have about a dozen projects on the go both here in Hampshire and up in London and yours has been the only project that has gone according to plan."

Featured installation: Toughened glass panels,  
walk in shower.

LET YOUR PERSONALITY SHOW

Our unobtrusive installations and stylish fittings will enhance the features of your room.

Featured installation: Toughened glass hinged doors and partition.

WE FIT IN WITH YOU – IT'S A PROMISE

Whatever the age, shape and size of your home, we will make sure we complement it without intrusion.

Featured installation: Walk-in fixed panel with support bar.

#### WE GUARANTEE QUALITY AND DURABILITY

All our showers are professionally installed and covered by a 10 year guarantee.

#### SUSAN PRICE DESIGN

"We are absolutely thrilled with the shower glass and have already inspired other friends in the interior design/property developing world. I look forward to recommending Glasstrends and thank you for your excellent service."

#### CYNTHIA GRADY

"Thanks so much for the shower enclosure – it really does look beautiful and exactly as I hoped. Thanks also for all the trouble you went to to match the steel with the handle and channels – they make all the difference."

Featured installation: Shower and w/c doors (brushed stainless steel finish to compliment bathroom fittings).

## DESIGN

We want you to get the best possible look for your bathroom and will happily assist with design advice to ensure the shower integrates into your bathroom in a stylish and functional manner.

Featured installation: Corner cubicle using Ultra Clear glass (low iron).

LUXURY FIRST

Create a statement within your surroundings by incorporating functional and beautiful frameless glass.

Featured installation: Steam room glass front, sauna room glass front, shower glass, w/c doors and large glazed panel to pool side changing area.

#### SLIDING DOORS

We are proud to present you with the best sliding door mechanism on the market. The German technology promises durability and functionality, almost without being noticed.

#### MARGARET WINSLOW

"I am delighted with the finished product and for the fact that you installed within the time frame you originally quoted. If only the rest of my home refurbishment ran this smoothly."

Featured installation: Sliding door and inline panel using Ultra Clear glass (low iron).

SPACE IS NEVER AN ISSUE

Show us a room and we will fit a shower,  
where you want it.

ALBA FLEMING

"Thank you – we are delighted with the shower enclosure.  
Thank you too, for your consideration last week when fitting  
the enclosure. Your guys were so quiet, our new arrival  
managed to sleep soundly."

Featured installation: Shower fitted over the end of  
existing bath.

### MAKE SMALL PLACES STYLISH

When we fit a bathscreen it is with the same attention and care as when we fit a full shower. The result: a classy and practical solution.

#### Featured installations:

Top – fixed panel with open in bi-fold door, made to clear shower controls when shower not in use.

Bottom left – wall mount double bi-fold doors, made to stow flat against wall for a clean look and ease of bath use.

Bottom right – made to gain maximum screen width and bi-fold flat against the fixed panel.

CORINNE AND CHARLES COHEN

"We are delighted with the finished product; we simply cannot fault it. We particularly like its sturdiness."

NAHEED UDDIN

"We had extensive building works done and the service received from beginning to end from your company was faultless (unlike any of the other companies we dealt with)."

Featured installation: Quadrant shower with panel cut to fit sloped ceiling.

## HANDLES

Handles are your connection with your frameless glass shower, and they are its most noticeable feature. We have carefully selected some of the most elegant and complementary pieces for you to choose from. Bespoke handles and fittings are available on request.

## CARE FOR YOUR GLASS

Glasstrends are pleased to offer customers the option of having their glass Clearshield treated. Clearshield is a lasting protective barrier which is applied to the shower glass to prevent lime scale and other residue damaging and staining the glass surface. Clearshield coated glass resists staining, is easier to clean and prevents the growth of bacteria. We recommend you use the aftercare cleaner to guarantee the sparkling finish of your glass for many years to come.

## WATERPROOFING

Glasstrends provide a comprehensive range of water seals and design detailing to provide a waterproof frameless shower. We strongly recommend that the shower rose or body jets do not face the door. Glasstrends can not guarantee a waterproof frameless shower door when the shower rose or body jets are directed towards the door. Glasstrends individually access every shower and discuss options with the client before manufacture to ensure the design incorporates the most efficient method of waterproofing. Some showers do not require any waterproof detailing. For example when the shower is being fitted to a wet room floor where there is sufficient drainage built into the floor, any water escaping around the door will naturally flow back underneath it, towards the drain. We can also provide sealing solutions for steam showers where an air tight door may be required.

## SAFETY GLASS

All glass used in Glasstrends frameless showers is 10mm thick toughened safety glass which is manufactured to British and European Safety Standard BS EN 12150:2000 and impact tested to BS EN 12600:2002. Toughened glass is a thermally strengthened glass which is five to seven times stronger than non-toughened glass. In the event of breakage, toughened glass will fracture into small uniform fragments with dulled edges to prevent serious injury.

## GLASS OPTIONS

You can choose to have your shower glass made with *Standard Clear Glass* which has a natural green hue or *Ultra Clear Low Iron Glass* which does not. For example when looking through *Standard Clear Glass* with a white background the glass will appear quite green. Because *Ultra Clear Low Iron Glass* is optically clearer, it is almost unnoticeable against the same white background.

There are various applications available to provide colour and texture to your shower glass. Please call us and one of our technical advisers will be happy to discuss your requirements and offer some options for you.

**Call: 020 7223 4017**

Accessories: Glass shelves, squeegee and robe hook.

## COMMERCIAL PROJECTS

The Glasstrends team has successfully completed many large volume and special projects in the UK and overseas. We will tailor a package to suit your budget and time frame. We offer supply-only delivered to site, or a full site survey and installation package, depending on your requirements. Please contact our commercial department for trade pricing or technical and design enquires.

**Call: 020 7223 4017**

## GLASSTRENDS – THE COMPANY

Glasstrends will provide you with a customised design and fitting service for frameless glass showers.

Our shower enclosures are tailored to your individual requirements, with a sophisticated range of fixtures and fittings giving you complete freedom of design. We take the greatest care when measuring, designing and fitting your new installation.

## A PROFESSIONAL SERVICE

Our experienced advisers will carry out a site survey and help you choose the best shower for your room.

Hinges, handles and fittings are available in a variety of styles and finishes, to complement your existing decor. They are manufactured to the highest standards to provide functionality with subtlety. Custom made fittings can also be created to enhance your individual space.

Dedicated tradesmen will ensure your shower screen is fitted professionally and on time.

## A TOUCH OF CLASS

Call us and an experienced adviser will be happy to discuss your requirements. Or visit our St John's Hill showroom to see for yourself the stunning difference a frameless shower will make to your home.

You'll be amazed at how something almost invisible can add a touch of class to a room.
