MINI MIXERS

The widest collection of designs brings you a choice of water flow styles and levers from open spout, waterfall and standard outputs to side, top and column lever controls. While small in size, all mini taps are big on style and performance to add a stunning yet subtle style statement to any washbasin.

CROSSWATER IT'S ALL ABOUT YOU SOLUTIONS FOR SMALL SPACES

Whatever your personal style is, there's a tap that's perfectly proportioned for any size of washbasin. Sweeping swan neck curves and cubist lever designs, the spectrum of collections are available in varying sizes so you can keep your favourite choice of tap that will perform with the ideal projection for your basin.

SIZE MATTERS

DESIGN EVOLUTION IS DESIGN REFINEMENT

With such a comprehensive choice of basin sizes, it's hard to find the best tap size that not only functions, but looks good too. The mini tap range provides the only solution to complement all basin styles. Correctly sized bathroom proportions can completely transform and unify the space.

At the hallmark of Crosswater Mini unique design, superior performance, durability and eco efficiency prevails, so you can achieve an accomplished finish.

CROSSWATER IT'S ALL ABOUT YOU 2500 DIVERTER VALVE

This innovative multi-outlet valve is probably the first concealed model to feature an integrated double check valve (DCV), which is designed to protect water supplies from contamination and back fill. Bath overflow fillers require a double check valve so this clever advancement in valve technology gives the very best in showering and modern bath filling, which also reduces installation costs and time.

This pioneering product operates 3 outlets from a single diverter instead of two. It can operate a bath filler with an overhead shower and handset, or a three-shower outlet such as a wall handset and a dual functioning overhead shower, for an invigorating experience.

A. Water control with diverter for three separate outlets

CROSSWATER IT'S ALL ABOUT YOU WATER AND ENERGY SAVING

Crosswater's continued investment in new technology means you can save energy and money with state-of-the-art advancements in product development. Slide is the new cutting edge eco basin mixer that features pioneering technology to reduce energy consumption and CO₂ emissions as soon as it is installed.

Simply lift the lever up from its standard central position and the innovative cartridge will supply cold water, unlike a standard basin mixer that draws on the boiler and / or heat pump each time you operate the tap. If you require warmer water, the clever design allows for the lever to be moved clockwise to initiate the boiler or pump. Slide enables you to demand energy just when you need it, which helps you to do your bit for the planet, whilst reducing your domestic costs too.

ECO basin monobloc

CROSSWATER IT'S ALL ABOUT YOU
NEW 1501 & 1701 VALVES

The new landscape 1701 and 1501 thermostatic valves are designed to be extraordinarily intuitive to operate with practical considerations. These luxurious valve outlets are fully integrated and operate by filling a bath whilst the handset is in use or for dual showering with the use of an overhead shower and handset. Smart looking, these duo outlet valves switch effortlessly between the bath and shower handset.

THE BELGRAVIA CHROME COLLECTION

Introducing our most extensive classically designed brassware, Belgravia is exceptionally crafted and hand polished across the entire range. For those with discerning tastes and a penchant for the highest quality, this elegant style offers a designer element to traditional

bathroom schemes. Displaying ultimate form and function, Belgravia is produced from genuine brass castings with ceramic levers and operates from low water pressure.

QUALITY

EXPERT CRAFTSMANSHIP

Working meticulously with the highest quality raw materials, all craftsmen are highly trained to create beautiful brassware with the utmost level of care and detail.

CHOICE

TWO STYLES

Two feminine designs are available to choose from for a sophisticated finishing touch.

CROSSWATER IT'S ALL ABOUT YOU 2500 DIVERTER VALVE

This innovative multi-outlet valve is probably the first concealed model to feature an integrated double check valve (DCV), which is designed to protect water supplies from contamination and back fill. Bath overflow fillers require a double check valve so this clever advancement in valve technology gives the very best in showering and modern bath filling, which also reduces installation costs and time.

This pioneering product operates 3 outlets from a single diverter instead of two. It can operate a bath filler with an overhead shower and handset, or a three-shower outlet such as a wall handset and a dual functioning overhead shower, for an invigorating experience.

BELGRAVIA EXPOSED VALVES CHROME

Complement your Belgravia bath and basin brassware with matching exposed shower valves.

OUTLET OPTIONS

The traditional style of the Belgravia exposed valve collection offers the option of a single or two outlet valve. Alongside an advanced thermostatic Vernet Cartridge, the clever addition of a second outlet and smooth diverter in the bottom of the valve brings together function and superior style.

DESIGN TO SUIT YOU SHOWER HEAD OPTIONS

Choose from the standard 8" fixed head, a 12" luxury fixed head or 8" fixed head with rub clean nozzles, each option fits the luxury 35mm diameter rigid rail adding a stylish statement to bathrooms.

Standard - 8" fixed head

Optional - 12" luxury fixed head

Optional - 8" fixed head with rub clean nozzles
see page 221

ADDED FLEXIBILITY HANDSET HOLDERS

Enjoy the freedom of a moveable shower head with our three popular handset holder styles. Whether you choose a handset on rigid rail, wall mounted handset or traditional cradle handset holder - each elegant design offers added flexibility in the bathroom.

VERSATILE DESIGN

**COMBINED OPTIONS
GREAT FOR FAMILIES**

Combining a fixed head shower with a handset is a great option for families as handset options can be adjusted to lower heights for children, whilst remaining on the riser. When removed, the added versatility is great for washing children's hair and cleaning the bath or enclosure.

STATEMENT SOLUTION

The elegant design of the Belgravia white glazed ceramic temperature indices and knob show what temperature has been set, in a classy design to complement modern and traditional interiors.

BELGRAVIA COMPACT

Add a touch of hotel luxury to bathrooms with the elegantly designed Belgravia collection. Traditional white glazed ceramic temperature indices and knobs complement both classic and modern interiors, whilst introducing a stylish statement to bathrooms. The versatile design allows extra flexibility in the bathroom, creating a showerhead that is as stylish as it is practical.

FEATURES

Fail-safe thermostatic control, maintaining selected temperature to within +/- 1.5°C

Water pressure: 1bar minimum

Smooth height adjustable directional hand set

Ceramic disc control for smoother operation

Quick transfer of water from hand set to overhead shower

Automatic safety shutdown should the hot or cold water supply fail

Flow control with integral diverter

COMPACT DESIGN

STILL BIG ON STYLE AND FUNCTION

Not every bathroom has the space for a big showering area. Although standard pipe centres fix the overall width of the exposed valves, our compact designs have been designed to save space where it might be needed. The BEL_MINI and BEL_MULTI are 147mm projection or 22mm smaller than the luxury Belgravia version, offering a surprising amount of extra room in the shower. The height of the riser can also be reduced to suit site limitations.

EASY CLEAN SUPERIOR DESIGN & FUNCTION

Belgravia's 8" fixed shower head option comes complete with rub clean nozzles in order to create a bathroom with exceptional style, quality and function.

THE BELGRAVIA NICKEL COLLECTION

Introducing our latest innovative brassware range, the Belgravia Nickel collection has a sophisticated smooth finish that offers a designer element to traditional bathroom schemes. Perfect for adding

an elegant finishing touch to bathrooms, Nickel evokes a dramatic style against Belgravia's white glazed ceramic temperature indices, whilst displaying ultimate form and function.

TAP HEAD CHOICE

SOPHISTICATED FINISHING TOUCH

Two feminine designs are available to choose from for a sophisticated finishing touch.

NICKEL VS CHROME FINISH

A CLASSIC LOOK FOR THE BATHROOM

Crosswater's products are outstanding examples of design excellence, combined with cutting-edge precision engineering and the very latest water delivery technology. Offering an unsurpassed depth of choice, Nickel is the latest introduction to Crosswater's product range, with a silky smooth and reflective finish that is perfect for introducing a hint of pure indulgence to homes.

BELGRAVIA EXPOSED VALVES NICKEL

Complement your Belgravia bath and basin brassware with matching exposed shower valves.

OUTLET OPTIONS

The traditional style of the Belgravia exposed valve collection offers the option of a single or two outlet valve. Alongside an advanced thermostatic Vernet Cartridge, the clever addition of a second outlet and smooth diverter in the bottom of the valve brings together function and superior style.

DESIGN TO SUIT YOU

SHOWER HEAD OPTIONS

Choose from the standard 8" fixed head, a 12" luxury fixed head or 8" fixed head with rub clean nozzles, each option fits the luxury 35mm diameter rigid rail adding a stylish statement to bathrooms.

Standard - 8" fixed head

Optional - 12" luxury fixed head

Optional - 18" luxury fixed head

ADDED FLEXIBILITY

HANDSET HOLDERS

Enjoy the freedom of a moveable shower head with our three popular handset holder styles. Whether you choose a handset on rigid rail, wall mounted handset or traditional cradle handset holder - each elegant design offers added flexibility in the bathroom.

Handset on rigid rail

SHOWERING

A bathroom should be a place for private retreat to unwind and embark on daily rituals, with nothing leaving you feeling as energised as an indulgent showering experience with a warm, refreshing cascade of water. Choose from a selection of soothing multi body jet streaming, revitalising overhead rainfall showers and directional handsets for pure indulgence and wellbeing. Crosswater has thoughtfully considered all requirements from mounted or concealed designs to safe thermostatic valves for single to four-outlet luxury.

SHOWERHEADS	214	SHOWER VALVES	270
SHOWER ARMS	244	BATH HANDSETS	296
SHOWER KITS	246	BODY JETS	298
SHOWER HANDSETS	269	OVERFLOWS, FILLERS & WASTES	300
OUTLETS & SHOWER HOSES	269	DOUCHES	308

SHOWERHEADS

If you've a penchant for contemporary design or if you lean to the more traditional styles, there's an array of sophisticated styles, sizes and ideas to inspire you. All designs are intuitively designed to ensure you have a supreme showering experience every time. We understand showering needs vary and you'll find showerhead sizes range from 150mm to 600mm in diameter. From a deluge of water that pours from flawless statement overhead designs to spa styles that refreshingly drench your entire body, create your ultimate showering experience.

SIZE MATTERS

COMPACT OR LARGE

A smaller head diameter enables a more concentrated down pouring spray pattern whereas a wider, larger head provides a gentle showering experience or for a combination of the two, there's a showerhead options to suit your needs. Featuring designs that encompass intelligent water distribution, you can tailor you showering preferences to exactly how you want them with assuring performance capabilities. Whether you favour a powerful and invigorating shower or a moderately refreshing experience, sizes span from 200mm to 600mm in diameter to ensure there's a dimension to individually suit you.

SHOWER ARMS

CEILING OR WALL MOUNTED?

To help you choose which showerhead design to incorporate, consider your style aspirations and the best water flow to create your desired experience. For an authentic overhead shower choose a style that's affixed to the ceiling, or a shoulder showerhead that's elegantly wall mounted.

Ceiling mount

Wall mount

A WIDE RANGE OF STYLES

MODERN AND TRADITIONAL SHOWERHEAD DESIGNS

The following pages will provide you with the design style, size and effect you dream of minimalist ultra-thin, cool classics and retro modern traditional style. Choose one of our air infusion models for a richer, softer water spray; the thin heads deliver the most even spray imaginable.

FEATURES

- Anti-lime scale function
- Wipe clean water nozzles for a perfect spray
- Choice of brass, stainless steel and ABS construction
- Suitable for all water pressure installations
- Adjustable angle
- Chrome finish face plates
- Swivel ball joint
- Air infusion technology (Essence and Elegance)
- Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute
- Option of ceiling and wall arm installation
- 15 year guarantee

LED FIXED HEADS

GREATER SHOWERING ENJOYMENT

Seek the benefits of chromotherapy that balances energy and achieves spa wellness with the collection of illuminating showerheads, for a revolutionary LED light showering experience. The low consumption LED lamps create a truly magnificent column of water and light with visually stimulating effect.

FEATURES

- Recessed ceiling installation
- Anti-lime scale function
- Double waterfall effect
- Up to 13 light settings
- Low consumption LED lighting
- Wipe clean water nozzles for a perfect spray
- Solid brass construction
- Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute
- Option of ceiling and wall arm installation
- 15 year guarantee

MULTIPLE WATER FLOW

THE BEST IN LUXURY SHOWERING

Create the ultimate spa like experience, with the luxurious product qualities seen across all fixed heads. For statement style, choose from a selection of innovative wall mounted heads that feature cascades of reviving water flows, gentle rain sprays or even a combination of both.

CROSSWATER IT'S ALL ABOUT YOU RECESSED SHOWER VALVES

Produced from solid brass and finished in durable chrome, all of the recessed valves offer the most advanced thermostatic shower valves available. Chic and minimal styling, they perfectly complement other brassware. Skillfully designed and engineered the valves operate at the set temperature even when other taps are in use. Dual control valves effortlessly allow you to operate the temperature and flow controls and are suited to British plumbing standards.

Approved to TMV2

REVIVE

An innovative choice with multiple water flow channels, Revive is perfect for those in pursuit of a flexibly showering experience. Sleek and streamlined with delicately rounded edges, Revive lets you switch between its waterfall and rainfall shower functions, which can also be operated simultaneously.

ETHOS

Changing the shape of showering pleasure, the Ethos handsets introduce the latest shower control technology at the touch of a button. Forget trying to operate a dial or slider with wet hands, Ethos allows you to simply press a button and comfortably switch between three spray modes invigorate, rain or a combination of the two.

Choose from a modern handset holder with wall outlet (pictured right) or opt for the ultimate in shower riser rails with the Ethos 'easy-sliding' push button design (pictured far right). The controlled height and angle adjustable handset holder is easy for the entire family to use and a great retro fit for any shower makeover.

CHOOSE THE IDEAL VALVE FOR THE PERFECT SHOWER

SHOWER VALVES

Crosswater has an unrivalled collection of shower valves to provide you with the ultimate in performance. Choose a highly efficient multi outlet experience or an versatile yet simple, single shower outlet. Whichever your preference, all designs are brilliantly engineered to suit British plumbing systems.

RECESSED VALVES FOR A MINIMAL LOOK

With the largest range of horizontal and vertical recessed valves, the collection remains unsurpassed choice and quality. Using thermostatic valve technology, you can be assured they're safe and easy to operate.

Recessed for streamlined appearance

Vertical and horizontal options

Multi control functions

Ceramic disc control for smoother operation

Precise thermostatic control, maintaining selected temperature to within +/- 1.5°C

Only 75mm deep wall recess required

100% solid brass construction and trim set

Chrome brass face plates -that fit over uneven/bumpy tiled surfaces

Fully serviceable from the front

Ideal for use with fixed showerheads, body jets or shower kits with wall outlet

Wide choice of head options designed to match your brassware, see below

Finished with high quality chrome plating

15 year guarantee

WRAS and TMV2 approved

RECESSED VALVES

1000 THERMOSTATIC VALVE

The best flow and temperature for a single fixed showerhead or shower rail using a wall outlet.

Water pressure: Single outlet works from 0.2 bar upwards

Temperature and water flow controlled independently

Suitable for all hot water systems, including gravity fed (0.2 bar minimum) and high pressure (5.0 bar maximum)

Temperature control mechanism has a temperature limit stop which can be preset at any temperature

Temperature handle has a built-in safety stop at 42°C with an automatic safety shutdown should the hot or cold water supply fail

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Fully serviceable from the front

WRAS Approved to TMV2

Wide choice of head options designed to match your brassware

Panel dimension w 120 x h 215mm

A. Water flow to single outlet

B. Temperature

1500/1501 THERMOSTATIC VALVE

The market's favoured two outlet valves. Ideal for a fixed head and shower rail, or shower head and bath filler.

Two outlet valve with diverter to switch between two different shower or bath functions

Water pressure: HP1, 1 bar

Portrait (1500 - shown right) and landscape (1501 - shown below) options

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Only 75mm wall depth required

WRAS Approved to TMV2

Fully serviceable from the front

Wide choice of head options designed to match your brassware

Panel dimension w 120 x h 215mm / w 215 x h 120mm

A. Water control with diverter for two separate outlets

B. Temperature

1600 THERMOSTATIC VALVE

This modern, multifunctional design allows you to switch effortlessly from bath filling to overhead or wall mounted shower.

Bath spout with integrated diverter for overhead or wall mounted shower

Water pressure: HP1, 1 bar

Panel dimension w 120 x h 275mm

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Fully serviceable from the front

WRAS Approved to TMV2

Wide choice of head options designed to match your brassware

1701 THERMOSTATIC VALVE

Our new and luxurious fully integrated two outlet valves can be smartly operated for bath filling with a handset, or double showering with an overhead shower and handset.

Two outlet valve with diverter to switch between bath and shower or two shower outlets

Landscape only

Water pressure: HP1, 1 bar

VALVE TECHNOLOGY

Endurance, quality, economy and safety lay at the core of every Crosswater thermostatic shower valve. Vernet CA43 is the world's leading thermostatic cartridge to ensure these qualities by providing smooth and precise control over the water temperature, time and time again.

ENDURANCE

The key element of the valve technology is the ingenious thermo-brain feature. The highly accurate mechanical movement cleverly ensures that a consistent temperature is maintained, even when other outlets, such as the kitchen tap, is in use.

QUALITY

In accordance with British Standard NHS D08, the Vernet CA43 cartridge provides the best temperature regulation and safety measures possible. The thermostatic mixer valve blends the hot and cold water together and reacts instantly to any changes in the water pressure. For example, when a WC is flushed, the cartridge ensures that the temperature is maintained to +/- 1°C. The high quality materials used for this thermo-brain greatly minimise potential limescale on working parts, which enables an extended lifetime and performance of the valve.

PEACE OF MIND

Vernet cartridges are designed and produced to fully conform to the requirements of TMV2 and 3, thus providing users of all ages with the peace of mind that water flow and temperature are consistently provided. Each valve is marked to demonstrate compliance. The anti-scald function is individually checked on each cartridge prior to leaving the factory.

CERAMIC DISC CARTRIDGES

The basis for all high quality shower valves is the performance of the turning parts even after it has been used thousands of times. All of our thermostatic shower valves use Flühs ceramic disc technology - the leading innovator, producer and supplier in the world of water supply products.

Silky smooth operation and water control are characteristic of Flühs products. All raw materials are highly resistant to acid and alkali solutions prevalent in a bathroom (soap, shampoo etc). The ceramic discs themselves provide the very best operation and are highly reliable, even when you have wet and soapy hands. The strength of the ceramic discs is extremely durable to prevent the usual wear and tear, even after years of prolonged use.

CROSSWATER IT'S ALL ABOUT YOU THE BENEFITS OF A CROSSWATER THERMOSTATIC VALVE

A thermostatic mixer valve offers three key benefits: user safety, ease of use and economy.

Safety

Once you have selected your preferred water temperature it will remain unchanging for the duration of your shower, so there's no risk of scalding from a sudden temperature increase and no surprising shocks should the temperature plummet. The Touch Safe range features enhanced technology ensuring the outer surface of the valve is never too hot to touch.

Ease of Use

The thermostatic mixers (single or multiple outlet), will maintain their pre-set water temperature, so whether you switch from one water outlet to another, or turn off the water to shampoo your hair, the thermostat will automatically find the exact same pre-set temperature when you re-commence your shower, allowing you to relax and enjoy the ultimate shower.

Economy

By installing a Crosswater thermostatic mixer you can start to save water and energy from the first day of use. Thanks to the superior shower technology and operation efficiency, a Crosswater thermostatic shower mixer will pay for itself over a short period of time.

EXPOSED THERMOSTATIC VALVES

Sleek in style with high performance, Crosswater's exposed thermostatic shower mixers are simple to operate and look fabulous in any bathroom. Supplied as standard with built in safety controls, we have developed an easy-to-use installation kit for convenient fitting.

FEATURES

Suitable for all hot water supply systems from 0.5 bar pressure

Solid brass construction

Separate flow and temperature controls

¾" outlet and inlet

Facility to set your preferred temperature and leave for the next time you use the valve

Temperature handle has a built-in safety stop at 38°C with manual override button

Ceramic disc control for smooth turning action and no drips

Complete with wall unions for installation

15 year guarantee

Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute

Multifunctional valves can be quickly and easily installed with all water-running elements mounted on the wall exterior to free up valuable basin top space and allow the valves to be maintained or upgraded with ease.

Perfect for use with any Crosswater shower kit

EXPOSED THERMOSTATIC BATH/SHOWER VALVES

Featuring all the technological advancements of our exposed shower valves, our bath/shower mixers add a new dimension to standard bath filler designs. The valves feature a quick reaction diverter to conveniently alter the flow between the bath and shower for a safe bathing experience.

FEATURES

- _____ Suitable for all hot water supply systems from 0.5 bar pressure
- _____ ¾" outlet and inlet
- _____ Separate flow and temperature controls
- _____ Facility to set your preferred temperature and leave for the next time you use the valve
- _____ Temperature handle has a built-in safety stop at 38°C with manual override for a safer shower
- _____ Automatic safety shutdown should the hot or cold water supply fail
- _____ Ceramic disc control for smooth turning action and no drips
- _____ Complete with wall unions for installation
- _____ 15 year guarantee
- _____ Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute

BATH /SHOWER VALVES

NEW DESIGN FEATURING TOUCH-SAFE TECHNOLOGY

The perfect fusion of style and function, the new and innovative Arctic bath shower mixer with touch-safe technology offers a modern solution with its striking chrome and white finish. This beautifully styled multifunction mixer features a slimline handset for convenient hair washing and showering. Streamlined in appearance, its extra wide bath spout delivers water quickly with an impressive waterfall effect. The push controls are flush to the body of the design, making its aesthetics sleeker and also easier to clean.

TOUCH-SAFE

The touch-safe thermostatic bath mixer and shower valve have been designed with smart safety features that minimise the risk of burning. The functional, unique designs feature a rapid reaction time to water pressure fluctuation and limited heat transfer, making the touch-safe valves a safer option for the home.

FEATURES

- _____ Suitable for all hot water supply systems from 0.5 bar pressure
- _____ Solid brass construction
- _____ Separate flow and temperature controls
- _____ ¾" outlet and inlet
- _____ Finished with high quality chrome plating
- _____ Facility to set your preferred temperature and leave for the next time you use the valve
- _____ Temperature handle has a built-in safety stop at 38°C with manual override for a safer shower
- _____ Automatic safety shutdown should the hot or cold water supply fail
- _____ Ceramic disc control for smooth turning action and no drips
- _____ Complete with wall unions for installation
- _____ 15 year guarantee
- _____ Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute

Maximum external valve body heat transfer, is equal to the mixed working temperature of the hot and cold under normal installation conditions.

PERFECT MATCH SHOWER KITS

Our shower kits offer the best combination of quality, safety and performance to create your preferred combination of style, pattern and flow. A variety of spray patterns to suit individual needs with simple height adjustment for showerheads, means that the entire family enjoys their perfect shower everyday, see page 246.

A young girl with light brown hair is shown in profile, looking towards a modern, chrome shower fixture. She is adjusting the temperature handle of the valve. The shower fixture includes a handheld showerhead on a sliding bar and a main valve body. The background consists of white square tiles with dark grey grout. The lighting is bright, highlighting the metallic surfaces of the shower hardware.

CROSSWATER IT'S ALL ABOUT YOU ECO & INSTALL FRIENDLY

Speeding up the process of getting water to your desired temperature quickly means lower energy consumption, reduced heating bills and carbon dioxide emissions. Reducing water usage is important to us all so the innovative water delivery of our valves means you get maximum performance with less water. Multi-function valves are quickly and easily installed. All water-carrying elements are installed on front of a wall; they so they can be simply maintained or upgraded at any time without the need to get inside walls.

CROSSWATER
IT'S ALL ABOUT YOU
PERFECT FOR ALL BATHROOMS

Bidets are the epitome of European sophistication, hugely hygienic, practical and economical too. If you have the space, take heed from our designer cousins and choose from floor standing and wall mounted versions. There are also ergonomic douche valves available or a wide selection of bidet mixers to beautifully match basin and bath taps.

ACCESSORIES

Crosswater accessories provide a beautiful array of designs and styles in the smoothest chrome to add that finishing touch to any style from a contemporary en suite or cloakroom to a large traditional family bathroom. Attention to detail prevails in the design of each item to ensure they're styled to perfection, whilst providing the ultimate in performance even in the hardest working bathroom. All Crosswater accessories are made of the finest materials to deal with the rigours of a damp, often humid bathroom. As a result, there's a 10-year guarantee on all accessory ranges.

CUCINA

AN OUTSTANDING COLLECTION OF KITCHEN TAPS AND SINKS

Cucina is an eclectic collection of kitchen taps and sinks leaving you spoilt for choice. Making a splash with signature shapes and cutting-edge design, Crosswater's re-entry into the kitchen market promises a unique product offering that delivers quality, style and choice in abundance.

KITCHEN MIXERS

Incorporating innovative design with the ultimate in function that is the trademark of the Crosswater brand, Cucina presents both traditional and contemporary styles in an array of distinctive finishes guaranteed to impact and inspire. To complete the look, the expansive product offering extends to include a wealth of stylish sink designs; each created to provide a practical solution as well as complement the latest kitchen brassware collection.

For full product offering, go to www.crosswater-cucina.co.uk

TALL TAPS

SOLUTIONS FOR WASHING LARGE ITEMS

Elevate daily tasks and ensure ease in the kitchen by introducing a tap with extra height - perfect positioning and more space to splash around when washing larger items in the sink, and great for filling larger pots.

FINISHES

CHROME OR BRUSHED STAINLESS STEEL EFFECT?

Cucina offers a great choice of finishes to match not only your kitchen's theme, but also your own personal style. From shiny chrome plated brass to smart, brushed stainless steel on brass finishes; your kitchen brassware can be aesthetically pleasing as well as fully functional.

CROSSWATER IT'S ALL ABOUT YOU
MODERN OR TRADITIONAL STYLE?

Whether you're looking for a statement centrepiece or a complimentary addition to your kitchen, the Cucina range has a style to suit all tastes and budgets. Choose from a timeless range of traditional kitchen tap designs with the classic Belgravia crosshead; the beautifully contoured spout will make an elegant addition with a hint of modernity. For those with a penchant for revolutionary design, discover the bold shaping of the Acute tap or opt for designs with a sleeker, streamlined aesthetic such as the Kai Lever. Whatever your preference, Crosswater has a diverse assortment to match your ideal kitchen space.

CROSSWATER IT'S ALL ABOUT YOU
PULL OUT SPRAYS

Looking for more from your kitchen tap? Our modish Pull Out Sprays with a handy hose function are ideal for those in need of a practical solution that doesn't compromise on style. Complete with removable tap heads at the end of hoses for added flexibility; get the most out of your kitchen tap with this useful design feature.

FEATURE
SWIVEL SPOUTS

For maximum utility in the centre-of-action area of the kitchen, Crosswater offers a comprehensive range of taps with a smart and smooth swivel feature in all of its single-spout designs.

WATER PRESSURE

SELECTING THE RIGHT PRODUCTS

In order to select a showering system that will give optimum performance you need to identify the water pressure of the plumbing system in your home.

WHAT IS WATER PRESSURE?

Water pressure is a term used to describe the flow strength of water through a pipe; it is measured in bar.

IDENTIFYING YOUR WATER PRESSURE RATING

By identifying your home's plumbing system you can select a product that best suits your water pressure.

WHY IS THIS IMPORTANT?

Whilst the majority of Crosswater products are compatible with most systems, some high pressure (HP) products are designed to work with high pressure systems only. Products marked LP (low pressure) and MP (medium pressure) are also suitable for high pressure (HP) systems.

LP	minimum 0.2 bar
MP	minimum 0.5 bar
HP1	minimum 1 bar
HP2	minimum 2 bar
HP3	minimum 3 bar
HP4	minimum 4 bar

All products marked LP (Low pressure) and MP (Medium pressure) are also suitable for HP (High pressure) systems.

WATER SAVING

We are all under pressure to save water in order to help the environment and reduce climate change. Part G of the governments' building regulations now requires all new domestic buildings to meet a maximum water consumption of 125 litres per person each day.

You can help to reduce the water consumption of your household by easily inserting a flow regulator into your basin tap or shower hose. This will allow you to control the amount of water your taps use.

5 lpm basin tap flow regulator
designed for taps with screw in circular aerator housing
35.6184.0 **£5.00**

3.5 lpm basin tap flow regulator
designed for taps with screw in circular aerator housing
35.6182.0 **£5.00**

8 lpm shower flow regulator
designed for hand showers or fixed heads operating min 1 bar
58.8638.1 **£2.00**

6 lpm shower flow regulator
designed for hand showers or fixed heads operating min 1 bar
58.8636.1 **£2.00**

Basin aerator 5.7lpm
40.8356.01002 **£3.00**

ECO basin monobloc
SL111DNC **£105.00**

With no pop-up waste

Water pressure: LP

A: 145mm B: 140mm

HOT GRAVITY & COLD GRAVITY/MAINS

Low pressure systems (LP 0.1-2 bar)

- ✓ You have a cold water storage tank in the loft.
- ✓ You have a hot water cylinder.
- ✓ You do not have a shower pump installed.

If all of the above apply to your home you can choose any product marked with LP (minimum 0.2 bar).

Note A gravity fed system provides MP (0.5 bar) to fittings downstairs in a 2 story property where the cold water tank is in the loft.

COMBINATION BOILER

Medium pressure systems (MP 0.5-1 bar)

- ✓ You have a combination boiler that heats water on demand.
- ✓ You do not have any storage tanks.
- ✓ You do not have a shower pump installed.

If all of the above apply to your home you can choose any product marked with LP, MP or HP1.

MAINS HIGH PRESSURE

High pressure systems (HP1/2/3 2-3 bar)

- ✓ You have an unvented cylinder with an expansion cylinder.
- ✓ You have no cold water tank in the loft.

If either of the above apply to your home you can choose any product marked LP, MP, HP1, HP2 and HP3 (minimum 1/2/3 bar).

PUMP ASSISTED

High pressure systems (MP to HP4)

- ✓ You have a booster pump fitted.

If either of the above apply to your home you can choose any of our products. **Please check your pump meets the minimum pressure.**

IT'S EASIER THAN EVER TO BROWSE OUR FULL COLLECTION

Here at Crosswater we have everything you need for your bathroom, from bathroom taps, furniture, shower enclosures and much more. We want to make planning your bathroom a pleasurable experience, so we've created three ways for you to view our products online. Our eBrochures, App brochures and comprehensive website make browsing our products even easier as all can all be viewed electronically, whilst supporting the environment by reducing printed material.

1 eBROCHURES

Try our online eBrochures and browse at your leisure on your PC, laptop or tablet device. Once loaded, use the navigation arrows to browse through the brochure pages or drag the page corners for a great page-turn effect. Click within a page to zoom in and again to zoom back out.

FEATURES

- Smooth page turn function
- Quick search feature
- Note writing feature
- Bookmark feature
- Email pages to a friend

Write notes on any page

Use the quick search feature to go directly to a product page

2 APP BROCHURES

We have developed a selection of FREE App Brochures that enable you to view our full range in easy to read and logical chapters. Our App Brochures are available for both Apple and Android users.

WHY VISIT YOUR LOCAL BATHROOM SPECIALIST?

Designing, planning and buying a new bathroom should be a truly enjoyable and ultimately rewarding experience.

At Crosswater we believe that by far the best place to buy your bathroom is at an independent bathroom specialist, why?.....

1 EXPERIENCE & EXPERTISE

Specialist bathroom retailers offer a wealth of experience and skill to ensure you receive an impeccable and personal service throughout your bathroom project whatever the size, including help with installation and local tradesman.

2 DESIGN CONSULTATIONS

Specialist bathroom retailers can offer knowledgeable assistance with room layout design and technical considerations - most will do this at in the comfort of your own home. Many can provide full 3D design plans so you can visualize your bathroom before its fitted.

3 TEST DRIVE SHOWROOM DISPLAY PRODUCTS

Browse, touch and test a huge variety of bathroom products in comfortable surroundings, and receive qualified and fully trained advice on each and every aspect of the products - you simply cannot do this online.

4 AFTER SALES CARE

Once you have purchased from a bathroom specialist you can get personal and most importantly local after sales support.

PRODUCT QUALITY

TOTAL PEACE OF MIND

All Crosswater products are designed and produced to the most exacting British and European standards covering performance, durability and safety. To back this up, all Crosswater products carry extensive guarantees, details of which are available at the back of this brochure, online, or by asking your local retailer.

THERE'S A LOCAL BATHROOM SPECIALIST NEAR YOU

There are almost 600 independent bathroom retail specialists in the UK. The 'Where to Buy' feature on our website allows you to find a dealer as close to home as possible.

These stores present the largest choice of our products locally, including approved dealer status for Digital, Mike Pro and Kelly Hoppen ranges. Some outlets display products and ideas within dedicated "Crosswater Shop-in-Shop areas", some demo products are fully working and you can consult with fully trained sales people on all aspects of your bathroom project.

Specialists in at least one of our brands, with most stores offering a wide range of Crosswater products from within high quality display settings including many of the products featured in this catalogue. Stores have a knowledgeable Crosswater product expert available from initial visit through design and installation.

PRICES

This price list supersedes all previous publications with goods being invoiced at prices ruling on date of despatch. Prices are subject to alteration without notice and include VAT.

DELIVERY

Orders in excess of £5000 nett invoice value will not be subject to carriage charge and will be delivered within two working days from receipt of order. Orders below £5000 will be subject to a fixed charge of £5.00.

We will endeavour to deliver all orders on time and in full however we shall be under no liability for any delay or failure to deliver products. Any claim for non-delivery must be reported to the company within 14 working days from the date of delivery, such claims will not be accepted for deliveries to a third party delivery address.

RETURNED GOODS

Goods may only be returned for credit after receiving written agreement from the company. Cancelled orders will be subject to a fixed charge of 25%. Damaged goods will not be accepted. Goods not required may be returned within 14 days of the purchase date; all returned items must be in the original packaging and will be subject to 25% fixed charge. Special orders are non returnable.

RETENTION OF TITLE

Ownership of goods shall remain in the Company until full payment has been received for all goods comprised in this contract. If any goods are re-sold before payment is made the Company's right of ownership shall be transferred to the proceeds of sale or to the claim for such proceeds.

LIABILITY

All quotations are given and goods sold subject to the conditions that the seller's liability is limited to goods proved to have been defective in material or workmanship when they left the sellers works. No claim will be accepted where goods have not been used for the purpose for which they were intended, not fitted correctly, not maintained to the seller's recommended standards or have been abused or misused.

ERRORS & OMISSIONS

In the interest of continuing design and development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

CLEANING & MAINTENANCE

All Crosswater products should be cleaned with warm soapy water only and polished with a clean, soft, dry cloth.

When installing wall mounted products Crosswater strongly recommend making provisions for an in-wall access point, particularly when tiling, for maintenance purposes.

15 YEAR GUARANTEE*

All Crosswater products, unless otherwise stated carry a 15 year guarantee, which covers all manufacturing defaults. This guarantee does not cover damage during fitting, misuse or inappropriate cleaning or consumable goods, e.g. cartridges, hoses, "o" rings, diverters shower hoses or cartridges as these are guaranteed for 1 year. Care should be taken in hard-water areas to ensure the cartridge is regularly cleaned.

*All products carry a 15 year guarantee (with the exception of shower hoses and cartridges, which carry a 12 month guarantee).

PRODUCT COMPATIBILITY

Whilst the majority of Crosswater products are compatible, care should be taken on product selection prior to ordering to avoid installation issues. Technical drawings are available on our website or on request.
