THE ULTIMATE GLASS PROTECTION

Keep your shower looking brand new with Simpsons' Clear Glass Protection. An effective invisible coating, it acts as a lasting protective barrier on the surface of the glass, helping to drastically reduce staining from hard water and chemical deposits that accelerate the ageing process.

HOW DOES IT WORK?

Simpsons Clear is a colourless treatment applied to our shower glass. Soils and liquids tend to 'slide off' surfaces treated with Simpsons Clear coating, helping to prevent build-up and making the glass easier to clean.

FEATURES & BENEFITS

- Resists stains, particularly oil based stains
- Easy to remove hard water deposits
- No need for aggressive cleaners

Untreated glass can quickly and easily suffer permanent bonding of limescale and mineral salts onto its surface that can cause staining and damage with water spots being difficult, if not impossible, to remove despite regular cleaning.

Supplied as standard*, Simpsons Clear Glass Protection is a colourless treatment applied to our shower glass that keeps glass sparkling without any stains. Helping to prevent build up and making the glass easier to clean, the invisible coating allows soils and liquids to 'slide off' the treated surface. It is chemically non-reactive and non-stick, preventing limescale and other dirt from building up half as fast to make cleaning a simple, quick process.

It is chemically non-reactive and non-stick, which prevents limescale and other dirt from building up half as fast to make cleaning a simple, quick process; enhancing its durability to protect against the damage of oil based substances and the build up of unwanted fingerprints.

THE ULTIMATE IN STYLISH SHOWER TRAYS

Add natural beauty to the bathroom with Simpson's textured slate effect shower trays.

SIMPSONS IT'S ALL ABOUT YOU

NEW INNOVATIVE SHOWER TRAYS WITH UNIQUE ANTI-SLIP RADIAL

We understand that the practical performance of a shower tray is just as important as its aesthetic appeal. Specially developed using advanced technologies and superior materials, our Textured Slate-effect tray is produced from Acrylstone; a sophisticated composite of unique acrylic and stone. An ideal partner for overhead showerheads its innovative radial surface pattern allows water to drain quickly to the waste without building up. Featuring an anti-slip surface for extra safety and peace of mind along with an anti-bacterial additive that offers high levels of sanitation, its durable design is lighter in weight than alternative 'stone-effect' trays. Simple to install with unrivalled function, they come complete with fast flow waste and a stainless steel cover for a smart finishing touch.

Tray profile

SIMPSONS IT'S ALL ABOUT YOU

COLOURS TO SUIT YOUR STYLE

Designed to offer a stylish option that suits personal design preferences, our shower trays are available in three cutting-edge finishes that ooze a super-luxe feel; dramatic Black, minimalist White and authentic Slate Grey. For designer panache create a focal point in bathrooms and choose a finish that contrasts with wall and floor tiles, while a clean and crisp design in white is a great choice for streamlined spaces.

Tile weight - One of the great features of Simpsons Wetrooms is its strong adherence to tiles using approved cement based adhesives. This makes Simpsons Wetrooms an ideal product to use with heavy tiles such as natural stone. Dependant on the size of the tiles, Simpsons Wetrooms is suitable for tiles up to 50kg per m². Please ensure the appropriate adhesives and tapes are used in the installation of all Simpsons Wetroom products. Failure to do so will invalidate the product guarantee. See page 174 for fixings and adhesives.

FEATURES

Panels are preformed with adjustable legs

Easy to cut down to size

Faster to install than timber panelling

LEVEL ACCESS INSTALLATION

WOOD FLOORS

Fixing a level access wetroom onto a traditionally constructed board and joist floor is straight forward but it's recommended the work is carried out by a qualified professional. A feasibility site survey should also be carried out in advance to ascertain the length, direction of the waste and joists etc.

1. Remove floorboards to the nearest joist where the shower tray will be located.

2. Install the waste ensuring adequate run off.

3. Fix timber supports in between joists - these should be fixed low enough to bring your timber panels to the top of the joist.

4. Fix timber panels to support ensuring a level deck at joist height.

5. Fit shower tray and floor panels to entire floor area using board fixing adhesive and screws.

6. Seal all joints and fixings with waterproof joint sealing tape and corners. Your level access wetroom is now ready to tile.

CONCRETE FLOORS

1. You will need to cut out the concrete floor to recess the waste and tray where appropriate.

2. Fit the horizontal waste into position within the concrete floor.

3. Fit the shower tray into position using fixing adhesive.

4. Fit waterproof corners.

5. Fit floor panels to entire floor area sealing joints with waterproof joint tape.

6. Your level access wetroom is now ready to tile.

PRICES

The price list in our brochure dated 2012 collection supersedes all previous publications with goods being invoiced at prices ruling on date of despatch. Prices are subject to alteration without notice and include VAT

DELIVERY

Orders in excess of £50.00 nett invoice value will not be subject to carriage charge and will be delivered within two working days from receipt of order. Orders below £50.00 will be subject to a fixed charge of £5.00. Any claims for non-delivery, shortage or damaged goods must be reported in writing to the company within 14 working days from date of delivery. Such claims will not be accepted for deliveries to a third party delivery address.

RETURNED GOODS

Goods may only be returned for credit after receiving written agreement from the company. Cancelled orders will be subject to a fixed charge of 25%. Damaged goods will not be accepted. Goods not required may be returned within 14 days of the purchase date; all returned items must be in the original packaging and will be subject to 25% fixed charge. Special orders are non returnable.

RETENTION OF TITLE

Ownership of goods shall remain in the company until full payment has been received for all goods comprised in this contract. If any goods are re-sold before payment is made the Company's right of ownership shall be transferred to the proceeds of sale or to the claim for such proceeds.

PAYMENT

Payment is to be made by the end of the month following the date of Invoice. Failure to pay may result in the Company declining to accept orders until such time that your account is brought up to date.

LIABILITY

All quotations are given and goods sold subject to the conditions that the seller's liability is limited to goods proved to have been defective in material or workmanship when goods have not been used for the purpose for which they were intended, not fitted correctly, not maintained to the seller's recommended standards or have been abused or misused.

ERRORS & OMISSIONS

In the interest of continuing design, development and product improvement, Simpsons reserve the right to change colour, designs and product specifications without prior notice.

LIFETIME GUARANTEE*

All Simpsons products, unless otherwise stated carry a lifetime guarantee, which covers all manufacturing defaults. This guarantee does not cover damage during fitting or misuse.

- The guarantee is only available to original purchasers who have proof of purchase.
- If the product has been installed, Simpsons must be given the opportunity to inspect the product in the installed condition.
- If the product is defective in materials or manufacture the original purchaser must contact our Technical Department within 30 days of the fault occurring. If the fault is not resolved the goods should be returned to Simpsons and at our discretion we will refund the purchase price, repair and return the goods to you or send new goods or parts to you as a replacement, this shall constitute our sole obligation under this guarantee. Simpsons cannot be held liable for any reinstallation costs or maintenance charges relating to the replacement of spare parts.
- Due to a continuous development program. If in our opinion the product has failed under the terms of the guarantee and a replacement is offered but identical goods are no longer available, Simpsons will replace it with our nearest equivalent product.
- This guarantee covers normal use, it does not cover faults caused by wilful damage, incorrect installation, neglect, misuse, inappropriate cleaning, accidental damage and other events outside Simpsons control.
- The guarantee does not cover any product that has been altered or modified in any way without the prior written consent of Simpsons.
- If a claim is made under the guarantee a site visit maybe required which is chargeable, if the defect is due to faulty materials or manufacturing Simpsons will refund the cost of the site visit.
- The guarantee is only valid for products purchased, installed and used in the United Kingdom.
- The guarantee does not cover ex-display units.
- The benefit of this guarantee cannot be transferred to a third party.
- The guarantee is in addition to and does not affect your statutory rights.
- The product should only be cleaned with warm soapy water. Aggressive cleaning fluids could damage the enclosure and will invalidate the guarantee.

*All products carry a lifetime guarantee, with the exception of the following:

- Edge bath screen, Supreme foldaway bath screen and all seals - 12 month guarantee
- Elite Mirrored glass - 2 year guarantee
- 40mm shower trays - 5 year guarantee
- Wastes - 10 year guarantee

PRODUCT COMPATIBILITY

Whilst the majority of Simpsons products are compatible, care should be taken on product selection prior to ordering to avoid installation issues. Technical drawings are available on our website or on request.

EASY INSTALLATION

All products incorporate a clever width adjustment feature offering between 15mm and 60mm width allowance to cope with out of true walls, ensuring that they sit squarely on the shower tray. Most products are reversible for left or right hand fitting.

INSTALLATION NOTES

Trays must be plumbed and level, walls should be tiled down to the tray and sealed before doors or frames are fitted. Dimensions are designed for tiled in trays - not unfitted tray sizes. All doors and enclosures must be fitted to a tiled surface, not tiled up to the inside edge of the door. Enclosures must not be sealed on the inside, please refer to fitting instructions. Due to the weight of Classic Doors you must ensure that the walls to which fixing is to be carried out are of a suitable construction to support the enclosure.
